To: Hiring Team

Company: ZestIoT

Role: Client Executive - Europe

Dear Hiring Team,

I am writing to express my strong interest in the Client Executive position for Europe at ZestIoT. Your mission to enhance aviation operations through AI, IoT, and Digital Twin technology requires someone who not only understands B2B relationship management but also possesses a strong aptitude for complex technologies. As a B2B Lead Generation Specialist with a technical background in Engineering, I am highly motivated to bring consultative selling to the aviation sector.

Through my independent lead generation practice (CLG Project), I have developed a proven track record of identifying sales opportunities and booking meetings with senior executives. I leverage modern AI tools and automated workflows to research target accounts and execute highly personalized outreach across European and US markets. My background in Multimedia Engineering gives me a strong foundation to quickly understand ZestIoT's product offerings and effectively communicate the value of AI and IoT solutions to stakeholders at airlines, ground handlers, and airports.

While I do not have direct prior experience in the aviation sector, I have a deep aptitude for complex technologies and a proven ability to rapidly learn new industries to drive B2B sales. I am based in Spain with full EU work authorization, highly proactive, and fully prepared to travel across Europe to meet clients and attend aviation events. I would welcome the opportunity to discuss how my technical and commercial skills can support ZestIoT's growth journey.

Sincerely,

Daniil Kotelevets
