To: Hiring Team

Company: Zirconia Supply PPK

Role: B2B Sales Representative (Dental / CAD-CAM)

Dear Hiring Team,

As a proactive, fully independent Lead Generation Specialist based in Spain, I was immediately drawn to the B2B Sales Agent position at Zirconia Supply PPK. I specialize in identifying decision-makers and executing targeted outbound campaigns via Email and LinkedIn—exactly the skill set required to distribute your introductory offers and generate trial orders.

Through my independent lead generation practice, I recently built an end-to-end outbound pipeline from scratch. Utilizing LinkedIn Sales Navigator and data-scraping tools, I sourced and qualified over 500 B2B prospects. By sending highly targeted outreach and meticulously tracking responses in my CRM, I successfully generated a consistent 5–10 qualified leads per week. Because I am based in Spain and fluent in both Spanish and English, I am perfectly positioned to focus on opening the Spanish market by directly targeting local dental lab owners and procurement managers.

I thrive in commission-based, autonomous roles where success is driven entirely by proactive outreach and pipeline management. I would welcome the opportunity to discuss how I can leverage my outbound methodology to secure trial order requests for Zirconia Supply PPK.

Sincerely,

Daniil Kotelevets
